Eric,

My apologies for losing touch. You are correct I have been intending to coordinate a site visit with you. I will be on leave next week and have meetings scheduled for the week of July 11th. Will you be available the week of July 18th or July 25th if so which week works best? As of right now I am able to set up a trip for either of those weeks. Let me know what works best for you.

Subject: NFB Site Visit

Good Morning Mark:

How are you? I never heard back from you in regard to a potential site visit. Please let me know. We are at the NFB Site now and will be here until June 13th.

I hope all is well.

Thanks

Subject: RE: DBA Update

Thanks for the update. We won't be back to the site until June 24th. I would suggest the week after that if you are available.

Subject: DBA Update

I am still waiting on the corrected DBA rates from Pete Johnson. I am off today so I will work on getting them from him on Monday first thing.

On a different note I spoke with Mark P. and he suggested I schedule a site visit with you. Would June 22 and June 23 work for you?
